## Information Security Analyst (GRC & Compliance)

Results-driven Information Security and GRC professional with experience in delivering IT audits, BCM/DR, and compliance across agile environments, aligned with ISO 27001, GDPR, SOX, and SOC frameworks in large multinational organisations. [Here you can add 1-2 statements that will customize your resume to show how your experience and skills align with the desired qualifications in the job you apply for].

**Core Competencies:** Information Security Governance (GRC) | IT Risk Assessment & Risk Management | Internal IT Audits | Compliance Management | Business Continuity Management (BCM) & Disaster Recovery (DR) | Security Policies, Standards & Control Frameworks | Third-Party Risk & Vendor Assessments | Security Controls Design & Effectiveness Testing | Agile & Cross-Functional Collaboration

## Professional Experience

### Arctera US LLC | Information Security Analyst | Jul 2025 - Present

- Ensured uninterrupted regulatory and client compliance by completing application risk assessments within defined SLAs, resulting in zero audit observations.
- Elevated third-party risk governance by owning end-to-end Vendor Risk Management, including onboarding, offboarding, and remediation tracking.
- Enabled successful closure of statutory and enterprise security campaigns through timely control assurance and audit-ready evidence delivery.
- Strengthened organisational security culture by designing and delivering cybersecurity awareness programs for new joiners and internal teams.
- Improved vulnerability remediation efficiency by supporting Threat & Vulnerability Management activities and coordinating corrective actions across teams.
- Increased employee resilience to social engineering by designing and executing phishing simulation campaigns, analysing trends, and driving targeted training initiatives.
- Enhanced risk, compliance, and exception visibility by contributing to the implementation and optimisation of JIRA workflows and GRC platforms (Sprinto).

### Deutsche India Pvt. Ltd – Information Security Analyst (July 2022 – July 2025)

- Enabled regulatory-compliant application launches through timely security risk assessments and control validation.
- Reduced compliance gaps by performing detailed gap analyses and driving adherence to RACER and other statutory requirements.
- Delivered fast-turnaround freelance work for KINGST Advertising, creating clear, audience-focused social media content for mayoral election campaigns and client communications.
- Improved organisation-wide security awareness through targeted cybersecurity training.
- Contributed to successful closure of multiple regulatory assurance campaigns, including SOX, MAS, FFIEC, CAM, and PSD2, through timely evidence and control validation.

### Infosys BPM Limited | Technical Executive (Service Desk L1 Support) | Jun 2021 - Jul 2022

- Improved incident and request resolution efficiency by processing IT service tickets in ServiceNow and maintaining up-to-date knowledge management documentation.
- Enabled data-driven operational decisions by designing and generating ServiceNow reports with actionable analytical insights.
- Ensured timely issue resolution through centralized mailbox management and cross-team coordination.
- Maintained secure and stable operations by providing L1 support across VPN, Identity & Access Management, Active Directory, Unix, databases, and network services. Supported availability of 60+ business-critical applications through monitoring and SQL support.
