## WHY AI SCRUM – WHY NOW

# AI is already reshaping how agile teams work.

Sprint planning is getting smarter, retrospectives are supported by data, and user stories are drafted faster. Scrum Masters who can use AI-powered tools and coach their teams through these changes are in high demand.

This vendor-neutral certification covers everything from gen-AI essentials to backlog intelligence, governance, and transformation leadership – so you can evaluate, adopt, and lead AI Scrum tools wherever you work.

## WHAT YOU'LL BE ABLE TO DO

# Skills you can use the day you finish

- ✓ Master core AI, ML, and generative-AI essentials for Scrum Masters
- ✓ Identify and apply the right AI tools across every sprint ceremony
- ✓ Coach agile teams on adopting AI workflows responsibly
- ✓ Use AI-powered tools for backlog refinement and estimation
- ✓ Apply predictive analytics and AI dashboards for sprint decisions
- ✓ Address bias, privacy risk, and governance in AI environments
- ✓ Support AI adoption and change management across agile teams
- ✓ Apply generative AI – user-story generation and AI-assisted documentation

[Validate these skills – Enroll →](#)

## WHO SHOULD ENROLL

# Built for the people who run the sprint

Scrum Masters

Agile Coaches

Delivery Leads

Product Owners

Project Managers

Team Leads

Agile Transformation Consultants

Business Analysts in Agile teams

### No mandatory prerequisites

Basic familiarity with Scrum or Agile and some experience in or alongside delivery teams helps, but the program starts from gen-AI essentials for Scrum Masters and builds into applied skills. No prior AI or technical background required.
