GSDC
Generative AI in Risk & Compliance
CERTIFIED

An Overview

What You Can Expect From This Program?

Enhance risk management and compliance programs with GSDC's fine-tuned Generative AI in Risk & Compliance course, designed for risk and compliance professionals. Acquire explicit and implicit teaching about how to apply novel approaches in the generative AI domain. Understand advanced forms of AI and set them free to develop solutions for automating risk assessments or anomaly detection in large datasets, compliance checking, etc.

To address ethical issues related to the deployment of AI solutions, this step guides on how best to ensure that implementation of these solutions is done in a responsible manner and will not violate any set laws and regulations. Ensure that adequate processes and mechanisms are in place and decisions made that promote sound risk management, anchored by generative AI technology.

This certification will provide you with the most current information in the field, allow you to manage risks and become as ahead of the curve as possible in your profession.

Partnered with 50+ global training organizations, GSDC is your gateway to unlocking endless opportunities.

**Join us today and let your skills soar to new heights!**

Introduction

Generative AI in Risk & Compliance Certification

GSDC's Generative AI in Risk & Compliance Certification is a specialized certification program developed for professionals in the sector of risk management and compliance. This certification provides the required knowledge and skills to leverage generative AI technologies more effectively.

Through generative AI in risk & compliance certification, professionals delve into the realm of generative AI models and frameworks, which will help them explore how Generative AI is used to automate risk assessment, enhance compliance monitoring, and detect anomalies in large datasets.

Professionals can also navigate the ethical considerations surrounding AI applications in risk and compliance by ensuring responsible AI practices. With the help of this certification, professionals can implement the structures and make effective decisions that will support effective risk management.

Learning Objective

1. Generative AI brings the ability to ask complex questions and get plain-language answers; it reduces risk and enhances communication between senior administrations.
2. Generative AI contributes to improving security, privacy, quality, and regulatory compliance.
3. It contributes to better scanning and evaluates pending legislation.
4. Generative AI in risk & compliance successfully manages the obligation libraries and regulatory change management.
5. It helps with policy management and coordinates it with businesses' current policies and processes.
6. Generative AI successfully stimulates various scenarios and allows risk managers to assess potential impacts and plans.
7. It can be used in the various operations of risk mitigation and its implementation strategies.

OBJECTIVES OF GENERATIVE AI IN RISK AND COMPLIANCE CERTIFICATION

1.Grasping Generative AI Fundamentals:
•Delve into the Core Concepts of Generative AI
•Explore the Diverse Array of Generative Models
•Establish a Strong Foundation in Essential Terminology

2.Applying Generative AI to Risk Management:
•Harnessing the Power of Generative AI for Risk Assessment and Mitigation
•Illuminating the Role of Generative AI in Credit Scoring
•Navigating Market Risk Analysis through AI-Driven Approaches

3.Generative AI in Compliance Landscapes:
•Demystifying Regulatory Compliance in the AI Era
•Elevating Anti-Money Laundering (AML) with AI-Powered Solutions
•Maximizing Know Your Customer (KYC) Protocols with Generative AI
•Safeguarding Data Privacy and Security via AI Innovations

4.Risks in Generative AI:
•Overview of the Generative AI Risk Landscape
•Potential risks and their implications
•How these risks can have a real-life impact
•Evolution of Threat Actors, Data Leakage, Prompt Injections, Indirect Prompt Injections
•Inadequate Sandboxing, Hallucinations, Server Side Request Forgery
•DDOS attacks, Data Poisoning, Model Bias, Copyright Violations

5.Security in Generative AI:
•Security framework implementation for Generative AI systems
•Key challenges to overcome
•Techniques to assess and improve the security posture of a Generative AI system
•How to Secure Generative AI
•Threat Modeling and GenAI security
•LLM and AI Governance Checklist

6.Developing a Security and Compliance Program with Gen AI:
•Planning
•Assessment
•Remediation
•Monitoring

7.Ethics and Regulations in AI:
•Navigating the Complex Terrain of AI Bias and Fairness
•Ethical Considerations When Implementing AI Technologies
•A Global Tour of Regulatory Frameworks and Compliance Standards

Unleash Unlimited Potential

All GSDC certifications come with a lifetime membership, offering you a world of benefits to fuel your professional growth.

Expert Created Learning Material

Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguozeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
