ISO27KLI

CERTIFIED

Certified ISO 27001:2013 Lead Implementer

ABOUT CERTIFICATION

It validates expertise in planning, implementing, managing, and maintaining an ISMS compliant with ISO 27001.

Certified ISO 27001 Lead Implementers possess in-depth knowledge of audit planning, executing interviews, managing programs, designing reports, drafting non-conformity reports, conducting on-site audits, leading teams, and tackling real-world audit challenges.

This certification enhances credibility, positioning individuals as trusted experts in information security and opening doors to diverse career opportunities.

OBJECTIVES

1. Plan audits effectively.
2. Conduct audit interviews.
3. Understand ISO/IEC 27001:2013 standard for ISMS.
4. Oversee audit programs.
5. Create audit reports.
6. Prepare non-conformity reports.
7. Conduct on-site audits.
8. Take charge of an audit team.
9. Implement and manage ISO 27001-compliant ISMS.
10. Explore real-life challenges encountered during audits.

COURSE SYLLABUS

1. Overview of ISO 27001
- ISO 27001 Mission & Objectives
- ISO 27001 methodology
- ISO 27001 focus areas
- Review and monitor
- Improvement and maintenance
- ISO 27001 Clauses

2.Information Security Management Systems (ISMS)
- Skill in establishing security metrics
- Creating a Project Plan for ISMS ISO 27001
- Understanding Governance Frameworks
- Principles, Concepts, and Benefits of ISMS.
- Introduction to Management Systems
- Exploring the PDCA Cycle (Plan-Do-Check-Act)

3.Introduction to Auditing
- Defining & planning auditing
- Types of audit
- Techniques and principles
- Phases of audit

4. ISO 27001 Audit Execution
- Creating audit reports
- Analyzing data
- Implementing audit procedures
- Evaluating documents and reports
- Verifying the accuracy of reports
- Developing and incorporating findings
- Strategizing, coordinating, and prioritizing
- Influencing Factors on audit findings' Reliability

5.Internal Auditor
- Roles and responsibilities
- Record review activities
- Internal auditor checklist
- Communication between departments
- Drafting reports and test plans

6.Risk Management
- Analysing and evaluating risks
- Managing risk approaches

7.Risk Assessment and the Statement of Applicability (SOA)
- Risk assessment summary
- Conducting risk assessments
- Methodology & Implementation
- Making plan & implementation
- ISMS risk assessment report
- The Statement of Applicability (SOA)
- Threats and vulnerabilities

8.Implementing an ISMS in an Organisation
- Apply the frameworks
- Design writing procedures and controls
- Implementing the controls
- Training and awareness program
- Management's role
- Impediments and aids to success
- Responsibilities of employees

9.Security Controls and Incident Management
- Management of incidents and operations
- Physical and environmental security
- Operations
- Communications
- Managing incidents
- Confidentiality and security of information in an ISMS
- Control and act
- Managing records
- Monitoring controls
- Indicating performance
- Developing a matrix according to ISO 27001
- Internal auditing

GSDC Technical Advisory Board :

The GSDC is the leading certification association which brings together innovative organizations and founding thought-leaders as Technical Advisors from over 40 countries to design curriculum on Blockchain, Devops, Six Sigma & Agile Certifications.

Our Future Information

Target Audience

- Project Managers
- Project Board Members
- Senior Responsible Owners
- Team Managers
- Product Delivery Managers
- Project Assurance
- Business Change Analysts
- Project Support
- Project and Program Office Personnel
- Operational line managers/staff

Pre-requisites

Recommended to have training on ISO 27001:2013 through a qualified training institution.

Recommended to have work experience in quality and security.
