

Certified ISO 45001 Lead Implementer

GSDC ISO 45001 Lead Implementer showcases the skills that you need to establish, implement, manage, and maintain an occupational health and safety management system (OH&S MS) in compliance with ISO 45001:2018 requirements and guidelines.

Certified ISO 45001 Lead Implementer

ABOUT CERTIFICATION

This ISO 45001 Lead Implementer Certification aims to showcase your thorough understanding of the standards set forth by ISO 45001 as well as the best methods and techniques applied during the implementation and ongoing upkeep of an OH&S MS.

A lead implementer certified to ISO 45001 can assist organizations in setting up a safer working environment. By obtaining a certificate that verifies your ability to implement an OH&S MS in accordance with the requirements of ISO 45001, you can start today to become a useful asset to organizations.

OBJECTIVES

1. Implement an OH&S MS based on ISO 45001 by starting the process and planning it using PECB's IMS2 Methodology and other best practices.
2. Help a company run, maintain, and improve an OH&S management system based on ISO 45001.
3. Verify an individual's fundamental concepts and principles of an occupational health and safety management system (OH&S MS) based on ISO 45001.
4. Interpret the ISO 45001 specifications for an OH&S MS from the implementer's point of view.
5. Prepare a business for a third-party certification examination.

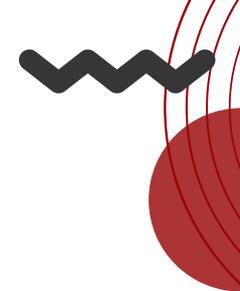

Our Accreditation:
