FEATURED IN

An ISO Accredited Certification

✓ IAS Accredited

✓ PCB-168

✓ ISO/IEC 17024

✓ IAF MLA Recognized

GSDC ISO 42001:2023 Lead Auditor is an ISO accredited certification

GSDC is independently accredited by the International Accreditation Service (IAS) as a Personnel Certification Body, PCB-168, under ISO/IEC 17024. Your ISO 42001 Lead Auditor credential is an accredited certification — verifiable, impartial and recognised worldwide, not a self-issued certificate.

IAS holds signatory status across APAC, IAF and ILAC arrangements.

Also accredited
by ABICB

Audit AI with Authority

1

Master AI Management System (AIMS) auditing, AI governance, risk and compliance against ISO/IEC 42001:2023, the world's first AI management system standard.

2

Plan, conduct, report and close a full ISO 42001 audit the way a lead auditor does, using ISO 19011 and ISO/IEC 17021-1 practices.

3

Earn an ISO accredited, vendor-neutral credential, valid for 5 years, with lifetime access to all learning.

CAREER OUTCOMES

Why ISO 42001 auditors are in demand

\$70–120k

typical certified-auditor salary

30+ hrs

Plus 2 full practice exams before the real one.

WHO IT'S FOR

Internal & external auditors

Risk management professionals

AI governance & GRC practitioners

AIMS consultants & implementers

IT, security & compliance managers

AI ethics, legal & compliance experts

Data scientists & AI architects

Quality & management-system pros

Prerequisites: None required. AI, auditing or management-system experience helps, but the program builds from foundations to leading a full ISO 42001 audit.

ISO Accredited Certificate

A globally recognised certificate from GSDC

- ISO accredited certification under ISO/IEC 17024 (IAS, PCB-168)
- Valid for 5 years
- Shareable digital badge for LinkedIn and your resume
- Verifiable — not self-issued

Sample for illustration only. Awarded on successfully passing the exam.
