

GLOBALLY RECOGNIZED · VENDOR-NEUTRAL · ANSI-ALIGNED

Certified AI Native Professional

— (CAINP)

Become a Globally Recognized AI Native Professional

Earn the CAINP credential — gain the skills to work, lead, and build AI-first, from prompt engineering and AI-augmented workflows to enterprise AI strategy and governance, and command a **25–60% higher salary**.

4.8/5 Reviews.io (96%) · **4.4/5** Trustpilot · **2,50,000+** certified

Enroll at gsdcouncil.org/ai-native-certification

Why This Certification, Why Now

Every profession is being reshaped by AI copilots, agents, and automation — while organizations race to become AI-native with strategy, governance, and trust intact. This is the skillset that bridges both sides.

Every role is becoming AI-augmented

Professionals already use copilots, custom GPTs, and AI agents daily across writing, analysis, and decision-making.

Prompting is now a core workplace skill

Text, image, video, and RAG-based prompting — with optimization and evaluation — separate power users from passengers.

Organizations are going AI-native

Leaders need AI strategy, use-case identification, and adoption roadmaps — not scattered experiments.

Trust and governance set the bar

Responsible AI, privacy, security, and human oversight demand skills traditional training doesn't cover.

FROM THEORY TO PRACTICE

What You'll Be Able to Do

Understand AI foundations: machine learning, LLMs, RAG, foundation models, copilots, and the five levels of AI maturity

Master prompt engineering for text, image, video, and RAG-based generation — with optimization and evaluation

Transform workflows with human-AI collaboration, AI-assisted decision making, and business process automation

Apply responsible AI principles: ethics, fairness, transparency, governance, privacy, and security best practices

Build enterprise AI strategy — use-case identification, adoption roadmaps, vendor selection, and value measurement

Lead AI-native transformation with the EDGE framework, multi-agent systems, and future-ready innovation

Why GSDC

**4.4 / 5**

Reviews.io · 96% recommend

2,50,000+

professionals certified

500+

Fortune clients

190+

countries served

Since 2016

US · SG · Switzerland

Independent, vendor-neutral certification body established in 2016 — offices in the US, Singapore, and Switzerland.

Accredited by ABICB (Accreditation Board for International Certification Bodies) and a proud member of ANSI.

Alumni work at 500+ Fortune companies across 190+ countries; 100+ Authorized Training Partners worldwide.

Certification built and reviewed with AI practitioners, enterprise-technology experts, and business leaders driving AI-native transformation.

Our Global Clients

Professionals across technology, cloud, finance, and enterprise business functions hold GSDC certifications.

Oracle

Amazon

Microsoft

Cisco

Veritas

HP

Bank of America

Deloitte

Volkswagen

IS THIS FOR YOU?

Who Is This Certification For?

- Chief Technical Officers and Chief Information Officers
- Business strategists and consultants
- Program and project heads
- Web developers, engineers, and scientists
- Change practitioners and managers
- Service, process, and portfolio architects and strategists
- Anyone building an AI-native skillset to advance their career

PRE-REQUISITES

There are no particular prerequisites for this certification. Knowledge of business domains and project management will be beneficial, but no formal AI background is required — the program builds from AI foundations up to enterprise AI strategy and AI-native leadership.

Learn from Experts

Learn from experienced practitioners and industry leaders who design, update, and teach the program — bringing real-world AI and enterprise transformation expertise to every module.

What You'll Learn

36+ hours across the full AI-native journey, with hands-on challenges and 30+ leading AI tools built into every module. Each module pairs videos and e-books with templates and Learn-By-Doing activities.

1

AI Foundations and Core Concepts

ML, LLMs, agents, RAG, copilots, and the five levels of AI maturity

5

Enterprise AI Strategy and Implementation

Use cases, roadmaps, vendor selection, and business value

2

Prompt Engineering and AI Interaction

Text, image, video, and RAG prompting with optimization

6

AI Applications Across Industries

Operations, CX, software, marketing, HR, finance, and compliance

3

AI-Powered Productivity and Workflow Transformation

Human-AI collaboration, automation, and AI micro-plans

7

AI-Native Leadership and Future Readiness

EDGE framework, multi-agent systems, and emerging technologies

4

Responsible AI, Governance, and Security

Ethics, privacy, security, compliance, and human oversight

8

Capstone Project — Applied AI-Native Transformation Plan

Design an AI adoption roadmap and micro-plan for a mock organization

Module-by-Module

Module 1 — AI Foundations and Core Concepts

- Evolution of Artificial Intelligence
- AI terminology and core concepts
- Machine Learning fundamentals
- Generative AI and Large Language Models (LLMs)
- AI agents and agentic AI
- Five levels of AI maturity
- Retrieval-Augmented Generation (RAG)
- Composite AI
- AI agents vs LLMs
- Foundation models
- AI copilots and custom GPTs
- AI ecosystem overview

Module 2 — Prompt Engineering and AI Interaction

- Prompt engineering fundamentals
- Prompt design techniques
- Context and role-based prompting
- Prompting for text generation
- Prompting for image generation
- Prompting for video generation
- RAG-based prompting
- Prompt optimization and evaluation
- AI-assisted content generation

Module 3 — AI-Powered Productivity and Workflow Transformation

- AI-augmented workflows
- Human-AI collaboration
- AI-assisted decision making
- Business process automation
- Workflow design using AI
- AI productivity tools
- AI for risk identification
- AI for problem solving and decision support
- AI for communication and feedback improvement
- AI opportunity identification
- AI adoption success factors
- Creating AI implementation micro-plans

Module-by-Module

Module 4 — Responsible AI, Governance, and Security

- Responsible AI principles
- AI ethics and fairness
- Transparency and explainability
- AI governance frameworks
- Data privacy and protection
- AI security best practices
- AI risks and mitigation
- Regulatory and compliance considerations
- Human oversight in AI systems

Module 5 — Enterprise AI Strategy and Implementation

- AI business strategy
- AI-native business transformation
- AI use-case identification
- AI solution patterns
- Stable, evolving, and frontier AI use cases
- Translating business needs into AI solutions
- AI adoption roadmaps
- Vendor evaluation and selection
- AI change management
- Measuring AI business value

Module 6 — AI Applications Across Industries

- AI in business operations
- AI in customer experience
- AI in software development
- AI in marketing and sales
- AI in human resources
- AI in finance and risk management
- AI in compliance and governance
- Industry-specific AI use cases

Module 7 — AI-Native Leadership and Future Readiness

- AI-native mindset
- The EDGE framework (Exponential, Disruptive, Generative, Emergent)
- AI innovation strategies
- Multi-agent systems
- Autonomous AI systems
- Emerging AI technologies
- Future of AI-native organizations

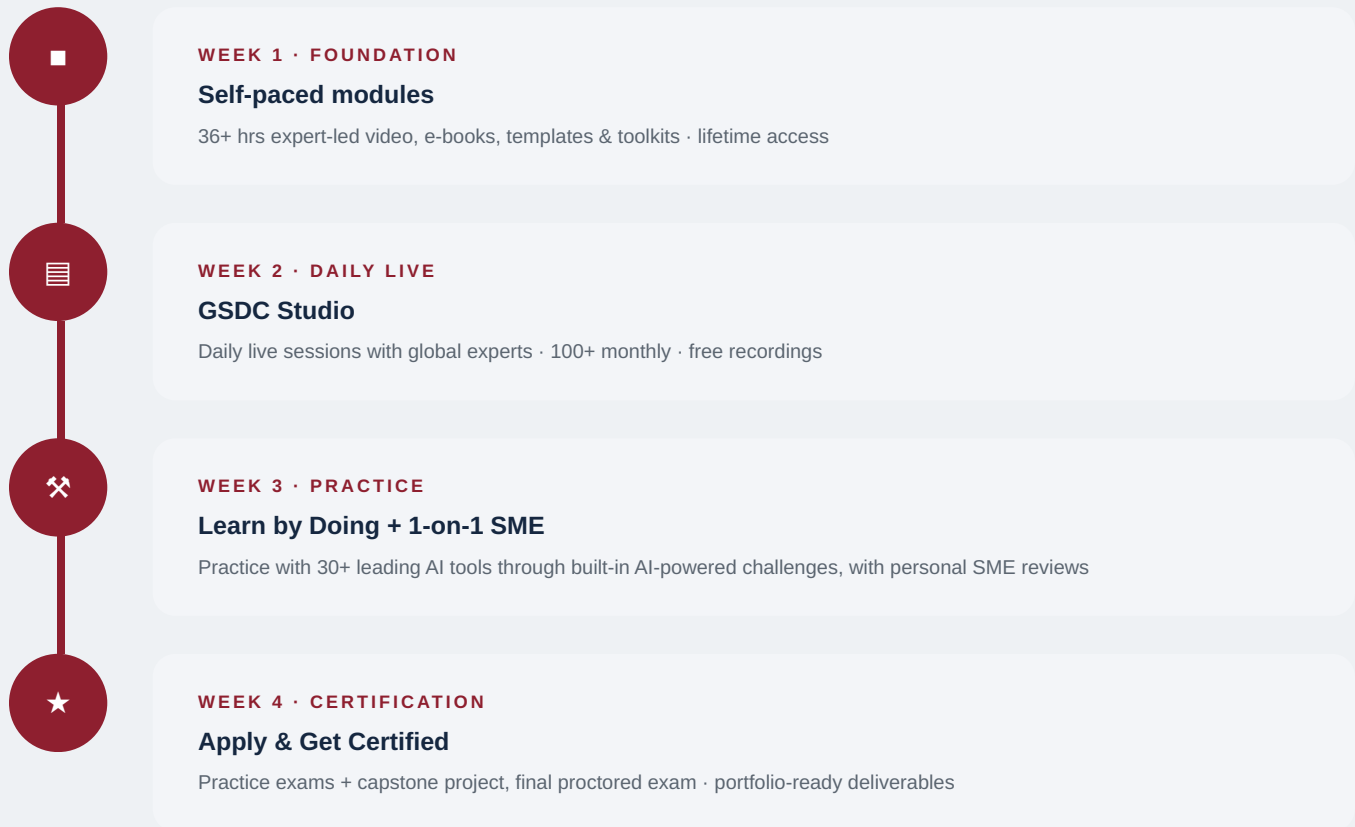

Capstone Project · Applied AI-Native Transformation Plan

— Design an AI adoption roadmap and implementation micro-plan for a mock organization, from use-case identification to value measurement — SME-reviewed, portfolio-ready. Plus 1-on-1 and daily expert sessions.

A Guided 4-Week Path to Certification

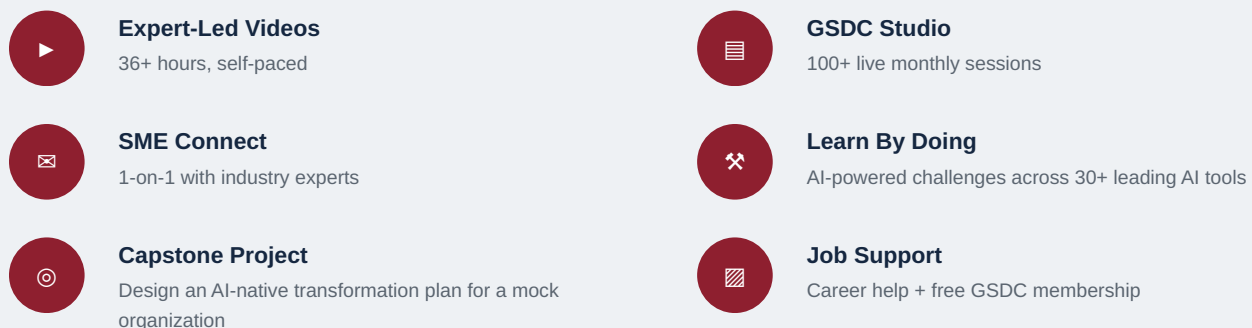

Self-paced study, daily live sessions, personal mentoring, and hands-on practice — finish in as little as one week.

Move at your own pace. This is a suggested roadmap — driven learners can finish in as little as one week.

ALL IN ONE ENROLLMENT

Everything Included

Exam & What to Expect

This is a certification, not a course. Study self-paced with the materials provided (plus live support), then sit a proctored online exam. Lifetime access to materials, plus 2 practice exams.

IS THIS FOR YOU?

Who Is This Certification For?

YOUR ROLE	HOW CAINP HELPS YOU	CAREER OUTCOME
CTO / CIO	Set AI strategy, architecture direction, and adoption roadmaps.	→ AI-Native Technology Leader
Business Strategist / Consultant	Translate business needs into AI solutions and value cases.	→ AI Strategy Consultant
Program / Project Head	Run AI-augmented delivery, decision support, and reporting.	→ AI Transformation Lead
Developer / Engineer	Build with LLMs, RAG, copilots, and agentic patterns.	→ AI-Native Engineer
Change / Process Practitioner	Redesign workflows around human-AI collaboration.	→ AI Workflow & Change Lead
Portfolio / Process Architect	Govern responsible, secure, and value-driven AI adoption.	→ AI Governance & Value Lead

No formal AI background required — built for professionals at every level, from practitioners to CxOs, ready to work and lead AI-native.

7-Day Money-Back Guarantee

Enroll with zero risk — full refund within 7 days if you feel you haven't gained the skills you're looking for. Includes a complimentary exam retake and lifetime access to your materials.
