Introduction

Certified in Cloud Asset Management

As cloud computing continues to transform businesses, cloud asset management has become an essential skillset. The GSDC Certified Cloud Asset Management certification validates expertise in managing cloud assets efficiently. By getting certified in cloud asset management by GSDC, professionals demonstrate they have the required knowledge of cloud asset management best practices. The certification exam covers topics like cloud governance, cost optimization, security, and compliance.

Achieving GSDC's cloud asset management certification designates technologists as certified cloud asset managers. With the rise of multi-cloud environments, certified cloud asset managers who understand consolidating and governing cloud assets are in high demand.

Earning the GSDC cloud asset management certification shows commitment to effectively overseeing cloud platforms and resources. As cloud asset management grows more complex, the certified cloud asset management credential highlights technologists dedicated to optimizing cloud assets.

Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguzeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
