# Introduction

## Certified DevOps Practitioner

The GSDC Certified DevOps Practitioner (CDP) certification is a recognized credential that validates an individual's expertise as a DevOps Practitioner.

By demonstrating proficiency in implementing DevOps principles and practices, certified professionals gain the necessary skills to streamline development and operations processes, enhance collaboration, and drive organizational success.

The devops practitioner certification serves as a valuable testament to a professional's commitment to mastering the essential techniques of DevOps, making them highly in-demand for today's job market.

By earning certified devops practitioner (cdp) certification, individuals demonstrate their proficiency in implementing DevOps principles and practices to streamline development and operations processes, enhance collaboration, and drive organizational success.

The GSDC Certified DevOps Practitioner (CDP) is a valuable credential that showcases a professional's dedication to mastering the principles and techniques of DevOps, making them highly recognized in today's competitive job market.

#### Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguzeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
