Partnered with 100+ global training organizations, GSDC is your gateway to unlocking endless opportunities.

Join us today and let your skills soar to new heights!

Introduction

Certified Information Security Management (ISO 27001) Foundation

The GSDC Certified Information Security Management (ISO 27001) Foundation certification validates individuals' proficiency in certified information security management and highlights its significance in today's world. This certification serves as a recognition of professionals' expertise in ensuring the protection and integrity of critical information assets.

By achieving this information security management certification, individuals demonstrate their understanding of information security management principles, best practices, and risk management techniques. They prove their ability to implement and maintain effective information security management systems, mitigating risks and safeguarding sensitive data.

In an era marked by increasing interconnectedness and digitalization, where cyber threats pose significant challenges, this certification plays a vital role in assuring the confidentiality, integrity, and availability of information. It validates professionals' competence to address evolving security concerns, protect organizational assets, and contribute to the overall success of businesses.

With the GSDC Certified Information Security Management (ISO 27001) Foundation certification, individuals gain a competitive advantage in today's technology-driven landscape and become esteemed validators of expertise in information security management.

Learning Objective

❑Understand certified information security management principles.

❑Implement effective information security management systems.

❑Protect organizational assets from emerging security threats.

❑Contribute to the success of businesses through information security.

❑Learn risk management techniques for information security.

❑Ensure confidentiality, integrity, and availability of information.

❑Optimize software assets and reduce costs for organizations.

❑Gain a competitive edge in the technology-driven landscape.

OBJECTIVES OF INFORMATION SECURITY MANAGEMENT (ISO 27001) FOUNDATION

Curriculum

1. Foundations of Information Security and ISO 27001
•Defining Information Security and Its Business Relevance
•Understanding the Purpose and Framework of ISO/IEC 27001
•Key Requirements and Structure of an Information Security Management System (ISMS)
•Strategic Advantages of Implementing an ISMS
•Roles and Responsibilities in Information Security Governance

2. Understanding and Managing Information Assets
•Identifying and Classifying Information Assets
•Roles and Accountability for Asset Protection
•Implementing Classification Schemes and Handling Procedures
•Aligning Asset Management with ISO 27001 Controls
•Managing Digital and Physical Assets Securely

3. User Access and Password Security Best Practices
•Principles of Identity and Access Management (IAM)
•Secure Password Creation, Storage, and Management
•Multi-Factor Authentication (MFA) and Access Controls
•User Rights and Privilege Management
•Password Policies Aligned with ISO Standards

4. Defending Against Digital Threats
•Introduction to Malware, Viruses, Trojans, and Ransomware
•Spam Filtering and Email Threat Mitigation Techniques
•Secure Configuration and Endpoint Protection
•Best Practices for Regular System Updates and Patching
•Aligning with ISO/IEC 27002 Annex A Controls

5. Workplace Security and Safe Computing Habits
•Clear Desk and Clear Screen Policy Implementation
•Mobile Device Usage: Security and Policy Guidelines
•Laptop and USB Drive Protection Measures
•Secure Wi-Fi and VPN Usage for Remote Work
•Securing Printers, Scanners, and Other Peripheral Devices

6. Navigating Social Engineering and Human-Based Attacks
•Understanding Social Engineering and Psychological Exploits
•Recognizing and Responding to Phishing, Vishing, and Smishing
•Social Media Usage: Risk Awareness and Best Practices
•Educating Employees on Insider Threats and Impersonation Tactics
•Simulated Phishing and Awareness Campaigns

7. Physical Security and Incident Response Preparedness
•Physical Access Controls and Visitor Management
•Device and Media Disposal Procedures
•Environmental Controls (Fire, HVAC, Power Protection)
•Identifying, Reporting, and Responding to Information Security Incidents
•Incident Classification and Documentation in Line with ISO Standards

8. Personalized Mentoring and Expert Support
•One-on-One Mentor Connect with Subject Matter Expert
•A 60-minute personalized session with a certified Information Security SME
•Get expert feedback on ISO 27001 implementation or compliance questions
•Ask scenario-based queries related to workplace security or incident handling
•Discuss your organization's security challenges and get tailored solutions

9. Tools, Certification Preparation, and Real-World Application
•ISO/IEC 27001:2022 Implementation Toolkit Overview
•Preparation for ISO 27001 Lead Implementer and Lead Auditor Certifications
•Use of Security Awareness Platforms and GRC Tools
•Case Studies: Data Breach Response, Policy Violations, and Audit Findings
•Final Assessment: Build a Mini ISMS Plan for a Sample Organization

Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguozeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
