

Certified in Machine Learning Master (CMLM)

Global Certification Program

- ✓ Globally lifetime Valid Certification
- ✓ Lifetime Valid Certification
- ✓ AI based Roleplay & Simulations
- ✓ Two Exam Attempts

An Overview

what you can expect from this program

The GSDC Certified Machine Learning Master (CMLM) certification validates your advanced expertise in machine learning. It demonstrates your ability to apply machine learning techniques for data analysis, predictive modeling, and informed decision-making. By passing the rigorous GSDC exam, you gain a competitive advantage in the field of data science. Machine learning is transforming industries and driving innovation worldwide.

Whether you're a data scientist, software engineer, or business analyst, the CMLM certification boosts your credibility and unlocks new career opportunities. Stay ahead in data science and harness the power of machine learning with the GSDC Certified Machine Learning Master certification.

	Type	Online self-paced learning, Mocks
	Language	English (including subtitles)
	Access	12 months
	AI based Role play	Prepare yourself for career with AI based roleplay
	Digital certificate upon completion (2 Attempts)	
	Card Payment, Bank Transfer	
	Reading materials & Reference Templates	
	100% money back guarantee*	

GSDC Introduction

Welcome to the Global Skill Development Council (GSDC)!

As an independent, vendor-agnostic certification organization, we empower professionals worldwide.

Leading MNC organizations and global universities recognize our certifications. With a diverse portfolio of over 100+ programs, including L&D, HR, SRE, DevOps, Agile, Six Sigma, and Cyber Security, we've certified over 50,000 professionals.

Partnered with 50+ global training organizations, GSDC is your gateway to unlocking endless opportunities.

Join us today and let your skills soar to new heights!

Introduction

Certified Machine Learning Master

The GSDC Certified Machine Learning Master (CMLM) certification is a high recognition of expertise in the field of machine learning.

This ML certification showcases your advanced skills and practical knowledge in applying machine learning techniques for data analysis, predictive modeling, and informed decision-making.

By successfully passing the rigorous GSDC certification exam, you gain a competitive edge in the fast-paced realm of data science.

Machine learning plays a vital role in today's world, driving innovation, revolutionizing industries, and shaping the future.

As a certified machine learning professional, you demonstrate your ability to harness this transformative technology to uncover insights and deliver impactful solutions.

Whether you are a data scientist, software engineer, or business analyst, the CMLM certification establishes your credibility and opens up a world of exciting career opportunities.

Stay ahead in the rapidly evolving field of data science with the GSDC Certified Machine Learning Master certification, and make a meaningful impact in the ever-expanding landscape of technology and analytics.

Learning Objective

- Make data-driven decisions to drive business success.
- Demonstrate proficiency in handling large and complex datasets.
- Apply machine learning techniques to real-world scenarios.
- Machine learning approaches
- Collaborate with experts in the machine learning community
- Validate mastery of various machine learning algorithms.
- Showcase expertise in feature engineering and selection.
- Utilize deep learning for complex pattern recognition.
- Employ ensemble methods for improved predictive accuracy.

OBJECTIVES OF MACHINE LEARNING MASTER

Curriculum

1. Introduction to Python Programming

- Overview of Python
- History of Python
- Python Basics: variables, identifiers, indentation
- Python data structures (dictionary, list, string, sets, and tuples)
- Statements in Python (conditional, iterative, jump)
- OOPS concepts
- Exception Handling
- Regular Expression

2. Introduction to various packages and related functions

- Numpy, Pandas and Matplotlib
- Pandas Module
- Series
- Data Frames
- Numpy Module
- Numpy arrays
- Numpy operations
- Matplotlib module
- Plotting information
- Bar Charts and Histogram
- Box and Whisker Plots
- Heatmap
- Scatter Plots

3. Data Wrangling using Python

- NumPy: Arrays
- Data Operations (Selection, Append, Concat, Joins)
- Univariate Analysis

- Multivariate Analysis
- Handling Missing Values
- Handling Outliers

4. Introduction to Machine Learning with Python

- What is Machine Learning?
- Introduction to Machine Learning
- Types of Machine Learning
- Basic Probability required for Machine Learning
- Linear Algebra required for Machine Learning

5. Supervised Learning: Regression

- Simple Linear Regression
- Multiple Linear Regression
- Assumptions of Linear Regression
- Polynomial Regression
- R2 and RMSE

6. Supervised Learning: Classification

- Logistic Regression
- Decision Trees
- Random Forests
- SVM
- Naïve Bayes
- Confusion Matrix

7. Dimensionality Reduction

- PCA
- Factor Analysis
- LDA

8. Unsupervised Learning: Clustering

- Types of Clustering
- K-means Clustering
- Agglomerative Clustering

9. Additional Performance Evaluation and Model Selection

- AUC / ROC
- Silhouette coefficient
- Cross-Validation
- Bagging
- Boosting
- Bias v/s Variance

10. Recommendation Engines

- Need for recommendation engines
- Types of Recommendation Engines
- Content-Based
- Collaborative Filtering

11. Association Rules Mining

- What are Association Rules?
- Association Rule Parameters
- Apriori Algorithm
- Market Basket Analysis

12. Time Series Analysis

- What is Time Series Analysis?
- Importance of TSA
- Understanding Time Series Data
- ARIMA analysis

13. Reinforcement Learning

- Understanding Reinforcement Learning
- Algorithms associated with RL
- Q-Learning Model
- Introduction to Artificial Intelligence

14. Artificial Neural Networks and Introduction to Deep Learning

- History of Neural Network
- Perceptron
- Forward Propagation
- Introduction to Deep Learning

15. Personalized Mentorship and Career Guidance

- One-on-One Mentor Connect with Subject Matter Expert
- A dedicated 1-hour session with an experienced AI/ML practitioner
- Ask specific questions about assignments, tools, or ML algorithms
- Get feedback on your project work and coding practices
- Clarify concepts or explore certification and career planning in data science

16. Tools, Certification Prep & Real-World Projects

- Hands-on Projects Using Real-World Datasets
- Tools Covered: Jupyter Notebook, Scikit-learn, TensorFlow (Intro), Git
- Sample Interview Questions and Capstone Guidance
- Certification Support: Python for Data Science, ML Certifications (Google, IBM, etc.)
- Real-World Case Studies in Retail, Finance, and Healthcare
- Model Deployment Concepts (Intro to Flask/Streamlite for ML Apps)

Unleash Unlimited Potential

All GSDC certifications come with a lifetime membership, offering you a world of benefits to fuel your professional growth.

Expert Created Learning Material

Learn from knowledge shared by Top Industry Experts with 15+ yrs of experience.

Access to Global Conferences

Be a part of GSDC thriving learning community around the world, sharing knowledge from across the world.

Speaker invites @ GSDC Webinar Series

Share your knowledge with world at GSDC global webinar series, share your expertise and learn from others.

Downloadable Resources

Get access to templates and reference documents which will help you to do your day to day tasks easier.

Certificate Upgrades

Get complimentary certificate upgrades to keep up with the latest updates in processes and frameworks.

Newsletters, blogs with industry insights

Get newsletters, announcements and articles curated by experts direct to your inbox.

AI Based Role Play

Learn to implement applicability of knowledge with real life simulation based games.

What You Get In this Certification Program?

- Engaging digital learning videos
- Exclusive access to Global thought leader sessions & case studies
- Downloadable and implementable resources to support practical application
- Two mock exams with unlimited attempts for comprehensive preparation
- Certification exam voucher with 1-year validity
- Two attempts for certification exam

What our Candidates Saying?

We greatly appreciate the feedback from our program participants on Trustpilot. With an impressive average rating of 4.7 out of 5, their reviews highlight the positive experiences and value they have gained from our program.

Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguzeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!

Date of experience: July 21, 2023

Expert-Led Generative AI: Learn, Connect, Grow

Interactive Learning Experience:

Ask questions, discuss case studies, and receive implementation guidelines directly from expert, enhancing your understanding of complex AI topics

Lifelong Learning Journey:

Enjoy lifetime access to these sessions, ensuring you stay updated with the latest trends and continuously grow your AI expertise

Career-Boosting Network:

Connect with fellow professionals in the field, creating valuable relationships that can propel your career in the world of Generative AI

AI-Based Interview Practice Platform

- Engage With Real Time AI Interview Questions.
- Practice Questions Tailored with Your Expertise.
- Validate your Knowledge of subject Matter.

Capstone Project

- Apply Your Skills in Real World Scenario.
- Learn Methodologies Aligned to Your Expertise.
- Validate Skills and Knowledge Gained through the Certification.
- Showcase Expertise via a Capstone Project.

Enrollment-Options

Option-1

Certified in Machine Learning Master With E-Learning

Fast-track your career by learning a new skill and earning a certificate

- ✓ Access expert videos and weekend 2-hour live sessions every Saturday with lifetime access
- ✓ 1 Certification Program
- ✓ Two Exam Attempts
- ✓ Lifetime Valid Certification
- ✓ E-Learning Library Access
- ✓ Downloadable Resources-Book of Knowledge, Templates
- ✓ GSDC Membership

ENROLL NOW

Option-2

Bundle

Create your own bundle with 3 certification program

- ✓ 3 Certification Program
- ✓ Access expert videos and weekend 2-hour live sessions every Saturday with lifetime access
- ✓ Two Exam Attempts
- ✓ Lifetime Valid Certification
- ✓ E-Learning Library Access
- ✓ Downloadable Resources-Book of Knowledge, Templates
- ✓ GSDC Membership

ENROLL NOW

Option-1 Certified in Machine Learning Master with E-Learning

Certified In Machine Learning Master with Digital Learning

Fast-track your career by learning a new skill and earning a certificate

- ✓ E-Learning from Industry Experts
- ✓ 1 Certification Program
- ✓ Two Exam Attempts
- ✓ Lifetime Valid Certification
- ✓ Downloadable Resources

Option-2

Make Your Own Certified in Machine Learning Master Bundle

**Enrich your skills and advance your career with our exclusive bundle.
Get certified in the following:**

- Certified Machine Learning Professional
- Ethical Hacking Foundation Certification
- Certified Software Development Life Cycle (SDLC) Professional
- Certified Data Science Professional
- Certified Artificial Intelligence Foundation

Expand your expertise, design impactful learning experiences, and master your skills.
