An Overview

what you can expect from this program

With the GSDC Certified ISO 27001 Lead Auditor certification, professionals can validate their role in various areas, including planning, executing, and reporting audits on organizations' Information Security Management Systems (ISMS). The primary objective is to evaluate the effectiveness of these systems in safeguarding information confidentiality, integrity, and availability.

Certified ISO 27001 Lead Auditors possess a deep understanding of the ISO 27001 standard and its requirements, as well as the ability to apply audit techniques to assess whether an ISMS is compliant with the standard. Lead Auditors are also responsible for ensuring that audits are carried out in compliance with ISO 19011, the global standard for managing systems audits.

To attain the Certified ISO 27001 Lead Auditor status, individuals must complete an accredited course and pass an examination. This certification is highly valued in industries and organizations that prioritize information security and risk management.

Introduction

Certified ISO 27001:2022 Lead Auditor

The **GSDC ISO 27001 Lead Auditor Certification** is a **globally recognized credential** that validates your ability to lead, plan, execute, and report on audits of an organization's Information Security Management System (ISMS). This certification ensures you're equipped to evaluate the effectiveness of systems that protect **confidentiality, integrity, and availability** of critical information.

To support practical understanding, the program includes **1-on-1 sessions with seasoned SMEs**, offering personalized guidance and insights to help you master real-world audit scenarios. These expert-led sessions strengthen your confidence in applying ISO/IEC 27001 requirements and auditing techniques effectively.

As an ISO 27001 Lead Auditor, you will also be expected to ensure audit compliance with **ISO 19011**, the international standard for auditing management systems. The path to certification includes completing an accredited training program and passing a formal assessment—preparing you for leadership roles in security audits, compliance, and risk governance.

Learning Objective

- ❑ Provide a **globally recognized ISO 27001 Lead Auditor Certification** that validates your expertise in leading, conducting, and managing effective information security audits.
- ❑ Offer **personalized 1-on-1 sessions with experienced SMEs** to support your audit readiness and address real-world compliance challenges.
- ❑ Equip professionals with in-depth knowledge of **ISO/IEC 27001 standards**, audit principles, and best practices in information security management systems (ISMS).
- ❑ Develop the ability to plan, lead, and report internal and external audits in accordance with ISO 19011 and ISO/IEC 17021.
- ❑ Strengthen your capability to identify risks, assess control effectiveness, and ensure alignment with global security and compliance requirements.
- ❑ Foster a practical understanding of auditing techniques through case studies, tools, and structured frameworks.
- ❑ Prepare professionals to handle complex audit scenarios and contribute to organizational compliance, security posture, and continual improvement initiatives.

Certified Learning & Development Professional CLDP

I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguzeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
