Join us today and let your skills soar to new heights!

Introduction

IT Asset Management Foundation (ITAMF)

The GSDC IT Asset Management Foundation (ITAMF) certification stands as a distinguished industry credential, validating professionals' expertise in the area of IT asset management. Designed for individuals seeking to establish a robust foundation in this field, the ITAM certification equips them with essential skills and knowledge to proficiently manage and optimize IT assets within organizations.

Regarded for its stringent standards and industry recognition, the ITAM certification offered by GSDC holds immense value, showcasing professionals' commitment to excellence in IT asset management. Encompassing a broad spectrum of topics, including asset lifecycle management, software and hardware asset management, license compliance, risk management, and cost optimization, this certification comprehensively covers key concepts, industry best practices, and adherence to standards.

By acquiring the GSDC IT Asset Management Certification, professionals gain a competitive edge in the job market, unlock pathways to career growth, and exhibit their mastery in IT asset management.

Learning Objective

- Standardize IT asset management framework.
- Guide and support the implementation of IT asset management processes.
- Enhance visibility and control throughout the asset lifecycle.
- Ensure compliance with regulations and standards.
- Foster collaboration among stakeholders.
- Promote best practices for cost-effective utilization.
- Alignment of IT Asset Management (ITAM) with best practice frameworks and standards such as ITIL®, ISO2000®, and COBIT®.
- Facilitate informed decisions on investments and upgrades.
- Identify and mitigate security and operational risks.

OBJECTIVES OF IT ASSET MANAGEMENT FOUNDATION

Curriculum

1.Introduction:

- Defining ITAM, its purposes, and objectives
- Understanding the significance of ITAM for your organization
- Overview of the four key areas: Hardware Asset Management, Software Asset Management, Services & Cloud Asset Management, and People & Information Asset Management.
- Exploring the impact of the IT Asset lifecycle on your business
- Identifying the key roles in ITAM, including stakeholders, functions, roles, and responsibilities
- Recognizing common business issues and challenges in the ITAM workflow
- Introduction to ITAM best practices, ISO 55000, and IT Service Management (ITSM)

2.Hardware Asset Management (HAM) Introduction:

- Concept, purpose, and benefits of HAM
- HAM lifecycle: acquisition to disposal
- Processes: request and approval, procurement, lifecycle management, redeployment, and disposal
- HAM's place in the ITAM ecosystem
- Mobile device management in HAM
- Best practices: ISO standards and ITSM
- Tool reflections in HAM

3.Software Asset Management (SAM) Introduction:

- Definition and objectives of SAM
- SAM best practices and framework
- The business value of SAM
- SAM process: request to disposal
- Key roles and stakeholders in SAM
- The placement of SAM in ITAM ecosystem

- Compliance in SAM
- Risks/costs of software audits
- Organizational pitfalls and challenges in the SAM

4.Services and Cloud Asset Management Introduction:

- Concept of services and cloud services
- Costs, challenges, and benefits of services and cloud services
- Definition and objectives within Services and Cloud Asset Management (SEAM)
- The contractual issues as assets in SEAM
- The pitfalls and benefits from SEAM
- TAM best practices in SEAM
- Placement of SEAM in the ITAM ecosystem
- Key roles and stakeholders in SEAM
- Compliance in a cloud perspective

5.People & Information Asset Management (PINAM)

Introduction:

- Defining PINAM's objectives and scope
- Treating Information and People as valuable assets
- Ensuring security and risk control in PINAM, including information sharing, employee transitions, mobile device loss, and access regulations
- Managing the challenges and benefits of Bring Your Own Device (BYOD) in People and Information Management
- Understanding mobile device usage and content management in PINAM
- Establishing effective policy settings for security policies pertaining to content, users, and mobile devices

6.ITAM Key findings and conclusions:

- The best practices in the ITAM framework
- Assessing ITAM maturity in your organization
- The interface between key ITAM areas (HAM, SAM, SEAM, PINAM)
- Effective communication of ITAM goals to stakeholders
- ITAM integration with organizational business drivers and goals
- Evaluation and conclusions

Certified Learning & Development Professional CLDP
 I took the certification course "Certified Learning & Development Professional CLDP" approved by the GSDC - Global Skill Development Council. So grateful to the professional team at the GSDC for this enlightening opportunity; namely, Ruguozeno, for her dedication, responsiveness, and constant support throughout this learning journey. And very special thanks to the amazing trainer and coach Deepak Sharma for the great weekly live sessions which I believe are the highlight of this certification programme. His knowledge, expertise, and outstanding skills have made the course very insightful, engaging, and enjoyable!
